

From page 29 of "Coronagraphic Imaging of 3C 273 with the Advanced Camera for Surveys" ApJ 125, 2964-2974 from acs.pha.jhu.edu/science/papers/documents/3c273.ps.gz with grid added by Robin Whittle 2007-02-03 (astroneu.com). Each step in the grid is 1000 parsecs according to the redshift distance and 2620 parsec per arcsec as quoted in the paper.
